

## TIMAF

TIMAF is a boutique consultancy dedicated to guiding organisations through a successful digital transformation by improving their digital maturity.

We combine expertise with a hands-on approach. Our proven methods and collaborative approach ensure impactful, sustainable results.

## Digital transformation

Digital transformation is the strategic use of digital technology to redefine how organisations operate, deliver value, and engage with customers and employees.

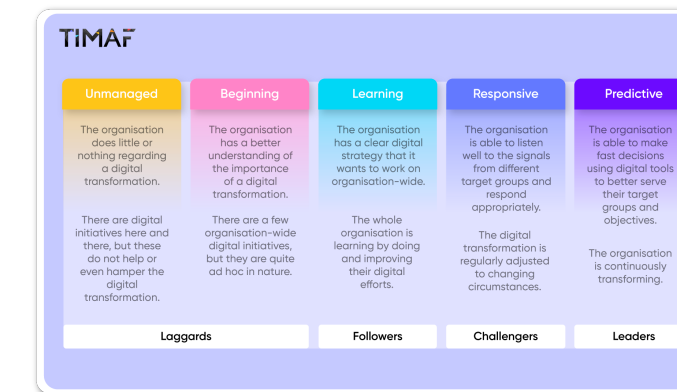

But without sufficient digital maturity, even the best digital transformation efforts will fall short.

## Digital maturity drives Transformation

Digital maturity measures how well an organisation uses technology, processes, and culture to innovate and stay competitive.

It's not just about digital technology: it's about building the capability to adapt and thrive in a digital world.

Digital maturity

## Empower your Teams

At TIMAF, we go beyond consulting - we empower. We help organisations elevate their digital maturity by giving teams the knowledge, skills, and confidence to own and lead the transformation.

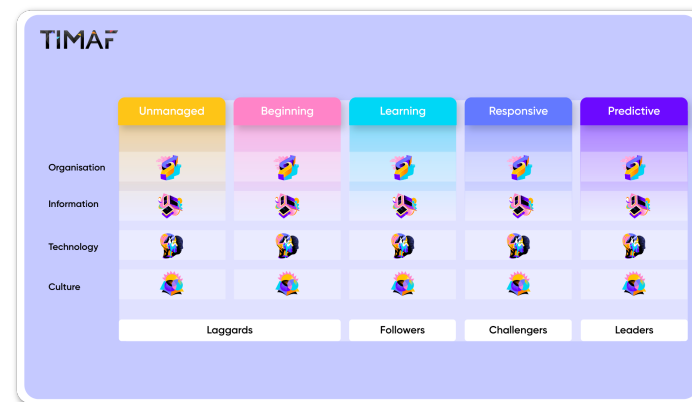

From leadership to execution, we prepare your people to drive change and grow a culture of continuous improvement.

## Assess the Digital maturity

We start by assessing your current digital maturity, make a roadmap for getting to the next level, and then provide targeted training and workshops to move your team forward.

Our support continues as you implement changes, ensuring your organisation reaches the next level of digital excellence.

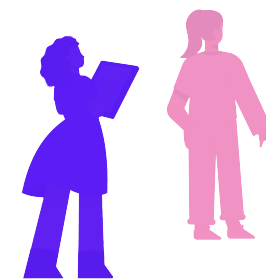

Organisation, Information, Technology, Culture

## Learn to Drive the Transformation

Our training programs are custom-built - based on the results of the digital maturity assessment - to equip both leaders and teams with the skills to spearhead transformation.

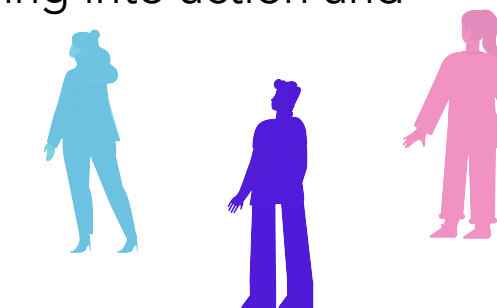

We also ensure your staff can confidently use digital tools, offering flexible learning options: online, self-paced, classroom, in-company, or fully tailored to their needs.

## Become a Digital leader

We coach your teams 'on the job', helping leaders and staff apply new skills and tools in practice.

From change management to hands-on problem-solving, we provide the support needed to turn training into action and drive real results.

Working towards a higher maturity level

## Join our Training program

Our TIMAF training programs covers all disciplines of Enterprise Information Management (EIM), Business Process Management (BPM).

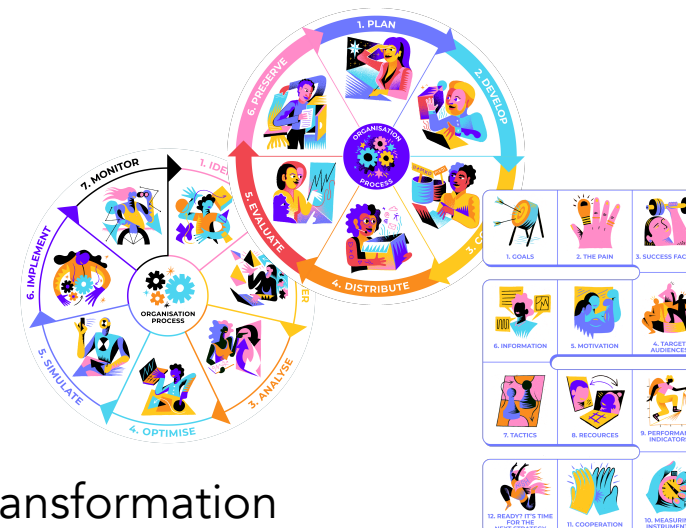

You choose which topics, formats and methods are most relevant for you.

## Use our Tools

TIMAF has developed its own tools, including a Digital maturity framework, the Digital strategy game, and the BPM and EIM lifecycles.

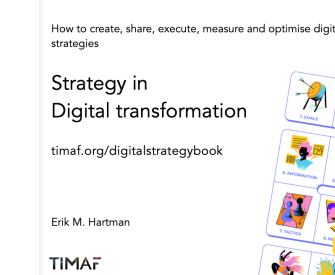

These resources make digital transformation practical, engaging, and achievable.

## Read our Publications

Our book, *Strategy in Digital Transformation*, offers actionable insights for creating, sharing, executing, measuring, and optimising digital strategies.

Our blog and newsletter provide ongoing inspiration and best practices to keep you ahead.

## Join our Community

Join our EMEA community of digital transformation professionals.

Connect with peers, share experiences, and access a network of seasoned experts to support your journey.
